

### Community Energy Awards 2025 - Nomination Guidance

Thank you in advance for your nomination for the **Collaboration in Community Energy** award. This award category is kindly sponsored by NGED.

To complete the nomination process, please review the following guidance and fill out the Google form [here](#). We recommend drafting your nomination in a word document and then copying it into the Google form when ready to submit.

Please ensure that your nomination form is completed by **Wednesday 17 September**.

The judges will review the submitted information to determine the award winner. The winners will be announced during the ceremony in Sheffield on 17 November. We encourage you to attend the ceremony - please email the names of those attending (maximum 3 per organisation) to [k.woodcock@communityenergyengland.org](mailto:k.woodcock@communityenergyengland.org)

***This award recognises the most commendable collaboration between a community energy organisation and its partners. The nominated collaboration should demonstrate outstanding efforts in supporting and advancing community energy through partnerships, investments, policy advocacy, or various forms of assistance, which have increased community energy activity or impact.***

In order to nominate your organisation for this award, please prepare answers and clearly demonstrate as many of the following as possible:

1. The nature of the collaboration and how it has contributed to the growth and success of community energy initiatives.
2. What was possible through the collaboration that could not have been achieved without it.
3. Evidence of innovation or overcoming barriers.
4. Sharing learning from the collaboration.

**Additional Information**

Please note that while additional information is optional, we strongly encourage you to provide up to three quotes from beneficiaries or stakeholders that could be used in a case study to support your nomination. Additionally, you are welcome to submit up to three pictures that further support this nomination.
