

Measham Leisure Centre

RCEF Stage: 1

Key Facts	

Key Figures	
<b>Project size:</b>	Solar, Heat Pump
<b>Tech type</b>	
<b>Energy Generation</b>	29.27 MW PA
<b>Payback</b>	2.72 years. Saving £10,000 over 7 years on current bills.
<b>CO2 savings</b>	8.27 tons PA, 22 tons PA
<b>RCEF grant</b>	

The Story

A charity-owned leisure centre is looking at how to improve its existing building and land to generate energy to use and sell to the neighbouring doctors surgery and library. The Charity wishes to reduce energy bills and carbon footprint plus generate energy for car charging points to sell to neighbouring businesses.
