

COMMUNITY ENERGY ENGLAND EVENTS

2024

ABOUT US

Community Energy England is the only organisation dedicated to supporting and facilitating community energy organisations and the broader sector in England.

As the voice of the sector, we are uniquely positioned to lobby government and advocate on behalf of community energy organisations and the sector as a whole.

All our work is intended to help clear obstacles, create connections between practitioners and stakeholders, and facilitate the work of community energy organisations, thereby benefiting the sector as a whole. We are also there to help when issues and policy changes affect community energy organisations' ability to create and implement projects, or the status or income of community energy organisations is threatened.

WHO WE ARE

OUR VISION IS:
**A THRIVING
COMMUNITY ENERGY
SECTOR INTEGRATED
INTO AND TRULY

SPONSORSHIP

Here are some of the reasons you might consider sponsoring one of our events, and details of the packages available:

Reasons to sponsor

Direct access to our network of 295+ community energy organisations.

Opportunities to deliver your sustainability message and demonstrate your support of the community energy sector

High profile branding opportunities and an opportunity to raise awareness of your services.

Position your organisation as a thought leader by aligning with discussions that address key themes and critical issues in the sector.

Showcase your expertise and contribute to shaping the narrative around the challenges and opportunities that lie ahead for community energy.

An opportunity for your organisation to forge valuable connections and collaborations that can demonstrate your support for the sector, and contribute to its growth and success.

REGIONAL MEMBER FORUMS (IN-PERSON)

ABOUT THE FORUMS

Our new Regional Member Forums are designed to empower and engage our community in meaningful discussions and capacity building tailored to regional characteristics and needs. These forums are not just gatherings; they are collaborative spaces where members guide workshops built around their capacity building needs and shape conversations around key local issues that are affecting community energy in their region now and in future.

COMMUNITY ENERGY
FORTNIGHT
(ONLINE)

ABOUT THE FORTNIGHT

Community Energy Fortnight is a two-week awareness campaign dedicated to promoting community-led energy initiatives and empowering communities to take charge of their energy future.

Taking place from 1-14 July, Community Energy Fortnight aims to raise the profile of community-led and owned energy, and inspire new people, businesses, and other organisations to get involved in creating a people-powered, sustainable, and resilient energy system.

This year's Fortnight marks a significant milestone for CEE; we are celebrating ten years of our organisation's dedicated efforts to support community energy in England and help the sector grow. CEF 2024's fortnight-long celebration serves as a platform to acknowledge and reflect upon the remarkable achievements and milestones of Community Energy England over the past decade, and celebrate our members who created CEE and continue to support us and power the community energy sector.

ANNUAL COMMUNITY ENERGY AWARDS (IN-PERSON)

ABOUT THE EVENT

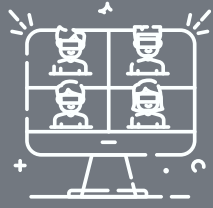

The Community Energy Awards are designed to celebrate innovation and excellence in the community energy sector. The ceremony celebrates all things community energy and truly showcases the commitment that everyone in the sector continues to make.

The awards are an excellent opportunity for demonstrating support for the sector and highlighting what your organisation can offer. For this event we offer a Headline Sponsor package, as well as award category sponsorship which includes the option to be part of the judging panel and presenting the award on the night.

MONTHLY MEMBER CALLS (ONLINE)

ABOUT THE MEMBER CALLS

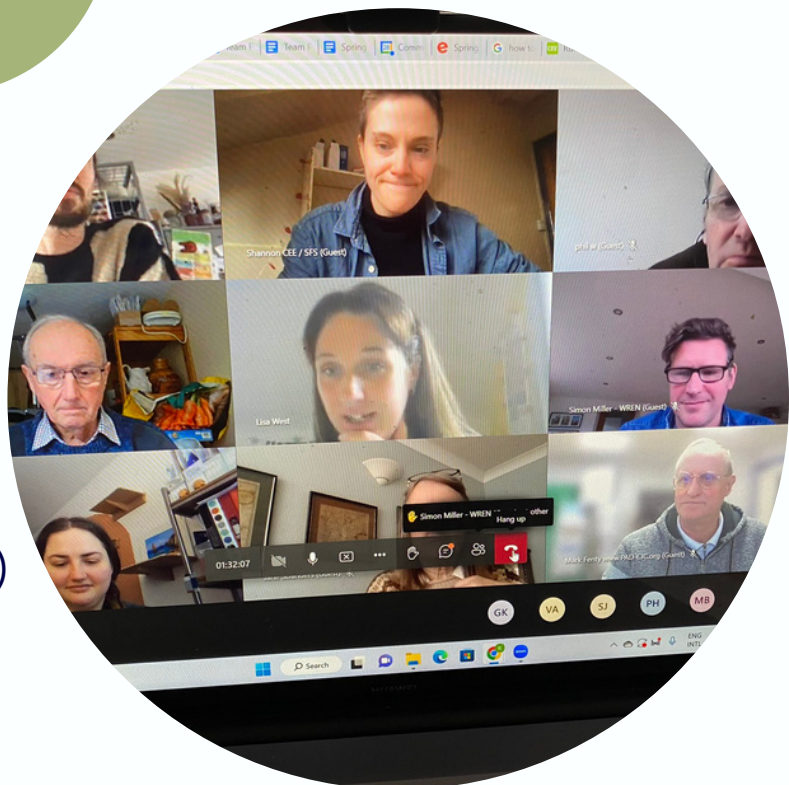

Our monthly member calls are vibrant, inclusive spaces designed to create a welcoming community where our members can meet and interact, and learn about new activities in the sector and skills that will directly help them deliver the many benefits of community energy.

These calls are based on our extensive member relationships and knowledge of sector needs and we create a warm and inclusive environment where our members can participate actively, speak freely about their situations and support needs, and contribute their ideas openly.
